Strictly Retail Only.

Our products are not allowed to be sold online.

Nightingale

Perfect Sleep Every Night

About Us

After over 15 years in the furniture industry we embarked on this journey to offer something different. The idea is very simple; not to follow other manufacturers or industry norms. Instead, we decided to use the knowledge and experience we gained over the years by interacting with retailers throughout the country and constructed products that are truly retailer friendly.

Even though we have become “Manufacturers”, our habits are still the same as they have been as “Sales Agents” and that is to put our customers before anything else. Therefore we can say that we are well aware of challenges you go through on a day to day basis.

For example, out of 27 products only 5 are tufted, the rest of them being mostly quilted tops or flat tops with no compromise on quality. Furthermore our Solid Divan option in comparison to traditional Divan bases, provides exceptional value.

Our workforce is advised to take their time to ensure the quality of the product meets the standard and expectations of our customers. We understand it is worth more to spend a few extra moments in the workshop to avoid inadequacy.

Our goal is to achieve the highest standard finish so our product is received at its best condition and to ensure customer satisfaction.

We put a precise system in place to ensure there are no errors during production, loading or delivery.

The products are designed to reflect a graceful finish as well as ensuring our retail friends are able to make a decent living through stocking our products.

Having worked with the retail industry, we are considerate of our retail friends and so we have made it clear that all Nightingale products are retail only and are not allowed to be sold online.

We are happy to work on reduced margins to achieve best of the best quality, our Solid Divan is a prime example of this ideology.

When it comes to sourcing materials, we prioritize quality over cost, most of our major suppliers are NBF registered including; VITA Foam, John Cotton, Service Timber and many more. Wool fillings are provided by a local supplier based in Yorkshire, who specializes in this field.

In short, we have been listening to our retail friends and decided that now is the time to implement those ideas and bring it into fruition.

Our Range Index

Explore our complete range of divan bases, mattresses and accessories.

MATTRESS CARE

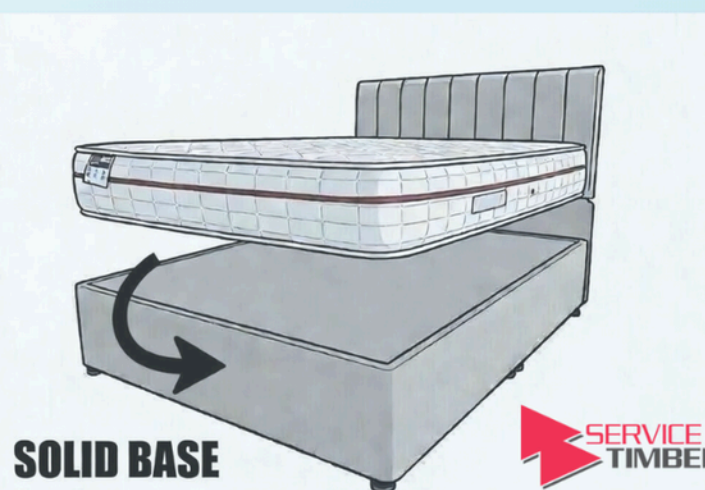

ROTATE ONLY MATTRESSES

- To **support your mattress in contouring and adapting** during the settling in period and long-term performance, it is very important for your mattress to be **regular rotated**.
- **One-sided (No Turn) mattress:** In the first three months rotate weekly and monthly thereafter.
- Please ensure you **use the middle of the mattress as well as the sides during the first 3 months**. This promotes **even settlement** across the whole surface and **prevents dips or mounds**.

- **Body impressions** occur when the mattress **fillings mould** to the **user's body shape**, with the areas of most pressure (shoulders and hips) showing the greatest **signs of settlement**.
- You should **expect a mattress** with generous **layers of comfort fillings** to **demonstrate body impressions**. This indicates it is **performing correctly**.

Solid Top Divans are recommended for Prolonged Mattress Life.

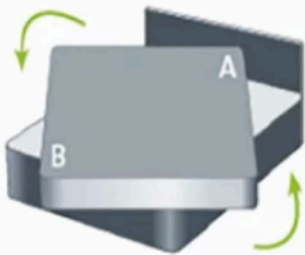

- Even Weight Distribution
- Prevents Sagging
- Reduced Internal Friction
- Full Support

MATTRESS CARE

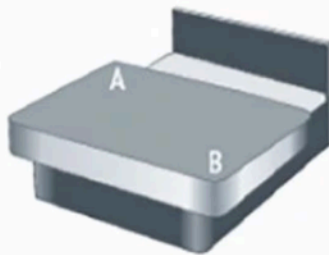

TURN & ROTATE MATTRESS

- Double-Sided Models: If your mattress is **double-sided**, you should both **rotate and turn**, this is to ensure the mattress settles in all areas on both sleeping sides.
- Please also use the **guide** on settlement, on the **previous page** to ensure you **Master the "Settlement" Period**.
- **Two-Person Lift:** Always use two people to move or rotate the mattress to ensure safety and prevent damage.

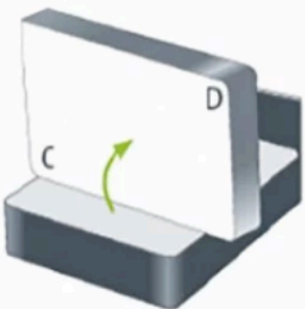

1 Push at opposite corners (A) and (B) While mattress is laying flat.

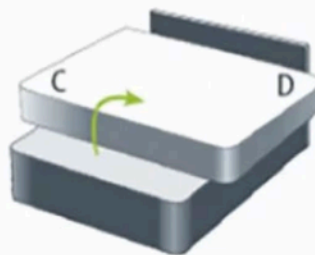

2 Position mattress across bed so that it hangs over about 30 cm or more.

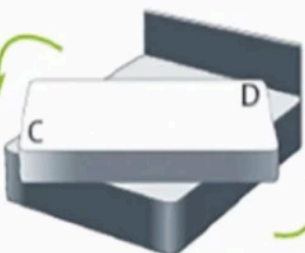

3 Raise mattress on edge as indicated in this illustration.

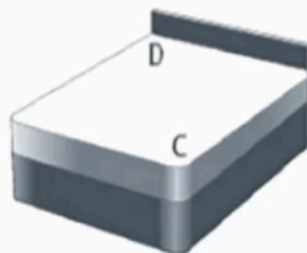

4 Let mattress fall gently towards head of bed as shown here.

5 Push alternately on corners (C) and (D) to position mattress on bed.

6 and there you are... turned over and end for end as well!

The Rotation Rule

First 3 Months:

Alternate **weekly** between **rotating and turning** over the mattress.

After 3 Months:

Transition to **rotating & turning** the mattress **once a month** to maintain its sleeping quality.
